## Bowl

### Date

1st Century AD

### Medium

Molded glass

### Description

Mold blown bowl of transparent very light blue-green glass

with many small bubbles. Bottom slightly concave. Low ring base with two concentric raised rings above that. From the upper ring to the shoulder the body decorated by a zig zag garland composed of a stylized feathered band. Between the broad Vs of the garland a pattern of two concentric raised circles repeated six times. A feathered garland encircles the bowl at the shoulder carination. Above shoulder a plain concave collar turned out at top to form plain rim. The bowl is broken and mended; the rim is chipped. The bowl has been cleaned, and small sections of the sides and rim have been replaced with plastic. Some dark incrustation and exterior pitting.
